**DETAILED ACTION**

1. Claims 1-11 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The cited art taken either singly or in combination with other prior arts fails to anticipate or fairly suggest the limitations which the Applicant claims in independent claim 1 in a manner which would warrant a rejection under 35 U.S.C. § 102 or 35 U.S.C. § 103, especially when these limitations are considered within the specific combination claimed.

The cited art, U.S. Pat. No. 6,198,635 to Shenoy et al., discloses an interconnect layout pattern for integrated circuit packages including: signal layers, first fixed potential layer and second fixed potential layer, etc. Shenoy et al., however, arts fails to anticipate or fairly suggest at least, among others, the method steps of: cutting the printed circuit board that is used to constitute a power layer to cut off an area that is coupled to a reference potential on the power layer in the area where the control chip is coupled to the CPU, and combining the printed circuit board to form a stack structure, as claimed in claim 1.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
